G GIDORA

GIDORA is a local brand that was formed at the end of 2019. Starting from the anxiety and ambition of 6 young people who have just graduated from vocational high school, to build a business and then the idea to create a brand called GIDORA was sparked. The name GIDORA itself is taken from the word ghidorah which is a fictional Japanese monster whose physical characteristics are a dragon monster that has many heads, just like the GIDORA brand, many heads but flapping their wings.
